

Soft-Skill Assignment :- 1

Hello Sir,

My Self Ishita Javiya.

I have completed my diploma from LUKHDIRJI ENGINEERING COLLEGE.

Currently I am pursuing Bachelor's Of Engineering In Information technology From Lukhdirji Engineering College.

At Top I Learned reactjs Technology.

I Am done Some Projects like data and music transfer app in android technology, and E-commerce website internship project in reactjs Technology.

My Technical skills include HTML ,CSS , JAVASCRIPT , REACTJS.

And my interest Includes Music listening and travelling and surfing and research about new technologies and articles.

KEY Personality traits :-

- 1) Ambitious
- 2) Creative :- I give a very unique solution in team meeting,
- 3) I am courageous and I'm not feeling deterred by challenges and difficulties.
- 4) Disciplined :- I have some ethics and disciplined in my life to follow for professionalism.
- 5) Articulate :- I have express myself very well in-front of others.
- 6) Determined :- I am already self motivated person.

Analytical skills :- I have faced a problem in my project presentation at college which is actually very early then sir give us date so that time I have take responsibility to done project as early as possible and I also ask sir to give extension to submit project and sir granted it and that's how my positive attitude for problem solving is very useful that time.

I have done summer internship tatv-soft and that time they learned about basics of react. So I have eager to know more about react and show that I stat

learning with basic s javascript and then I take a course at tops to get more deep knowledge for react.
